(2017-2020)**

On-line Workshop for Interface & Website Design

This workshop is aimed at exchanging information and seeking useful input for the ongoing development of Work Package 6: "Sustainable IT Platform". The goals, aligned with the deliverables, include: exchange of technical contacts between the different organizations, selection of a collaborative platform for project management, agreement on the technical platform that will support the course contents, definition of the visual and user experience of the website and said platform, and finally the discussion and delineation of the remaining tasks included in this work package.

AGENDA

Monday 21 st May 2018 — 13:00 - 17:00 UTC	
Activity	
13.00	Welcome and introductory remarks.
